Questions & Answers

1. Why are you running for council?

I have served the people of Commerce City for the last four years, and in those last four years side-by-side with the current council, I've seen the city make huge strides toward greatness. I'd like to continue to add value to our city by maintaining my present council seat. If re-elected, I will continue to be the voice of the people while seeing through the completion of the projects that I've been honored to be a part of establishing.

2. What do you see as the three biggest opportunities for Commerce City?

I see the three biggest opportunities for Commerce City as:

1. Economic Development following the completion of the widening of Tower Road
2. Light Rail Station development potential off 70th and Colorado
3. Development of the former Mile High Greyhound Park site

3. What do you see as the three biggest challenges facing the city?

I see the 3 biggest challenges facing our city as:

1. Making sure the south bound ramp off Tower on to Pena is started and finished in a timely, expedited manner.
2. Attracting Sit-down Restaurants city-wide.
3. Addressing the aging infra-structure in the Southern part of the city and confronting the issue of residential growth out-pacing the schools in the Northern part of the city, and lack of attracting appropriate commercial development over-all.

4. What does a “Quality Community for a Lifetime” mean to you?

To me it means this: Knowing you're raising your family in a place your kids would come back to live, work and raise their own family after college.

5. What is your favorite aspect of the city?

My favorite aspect of our city is the diversity of the people who live here, their eagerness to be engaged, and that the citizens see their Council as leaders who are capable of more than just filling potholes. I like that my constituents have made their relationships with me to be "up-close and personal". I enjoy being accessible to everyone in Commerce City, and that they see me as being approachable and available to hear what they are thinking. I value the community spirit of the people in this city, and more than anything, I really feel at home here in this place called Commerce City.
