

Telecommunications Equipment Certification Form

Certification by Colorado-licensed professional engineers for the installation and modification of telecommunications equipment mounted on an existing monopole or tower can be accepted in lieu of a building plan review for qualifying work; reviews by other city agencies may be required. Submit a completed copy of this form with the plan submission during permit application.

Project Information

Address: _____

Project Description: _____

Owner Information

Name: _____

Address: _____

City: _____ State: _____ ZIP Code: _____

Phone: _____ Email: _____

I am the property owner for the project listed above and request Commerce City to accept the certifications of the Colorado-licensed professional engineers, as shown below, in lieu of a full building plan review.

Signature of Owner or Agent: _____ Date: _____

Professional Certification

I hereby certify that:

- My Colorado professional engineer's license is current and in good standing.
- The design and plan preparation were under my direct supervision in accordance with state regulations.
- The equipment is being mounted on an existing monopole or tower (not an existing building).
- The height of the monopole or tower is not being modified.
- The design and construction complies with the current Commerce City Building Code.
- Stresses do not exceed 100 percent of the capacity of the supporting structural elements.
- All materials are approved for their intended use.

I acknowledge that acceptance of the certification shall not be construed as approval of any code deficiencies or defects subsequently identified.
