

Residential Driveway Certification

Instructions: This certification applies to driveway concrete pours associated with all new residential construction and must be completed by the licensed general contractor listed on the permit. By completing this form, you are certifying the City code-compliant installation of the driveway. You must submit a completed copy of this form to *eTrakit* when applying for your Certificate of Occupancy. Also, ensure a completed copy is on site and available to the City's Building Inspector during final inspection. Failure to submit this form could result in the prevention of a Certificate of Occupancy being issued.

PROJECT INFORMATION

Permit Number: _____	Date of Pour: _____
Project Address: _____	
Contact Name: _____	
Subdivision: _____	
Telephone: _____	Email: _____
Edition of the Commerce City Building Code (YYYY): _____	

ACKNOWLEDGEMENT

I hereby certify that:

- My Commerce City license as a general contractor is current and in good standing.
- The slab shall be reinforced with #3 reinforcing steel (3/8 inch diameter) at 24 inches on center or sheets of welded wire fabric (WWF) with an equivalent area of steel. Rolled WWF shall not be permitted. Reinforcing steel or WWF shall be located in the mid-depth of the slab. **Will be inspected at rough inspection.**
- The driveway slab shall be constructed on a minimum six-inch thick subbase compacted to ninety-five percent (95%) standard proctor at optimum moisture. **The compaction results report is to be on-site at time of rough inspection. Testing is not to be performed more than 72 hours before rough inspection.**
- The driveway is composed of a minimum four-inch thick concrete slab-on-grade and shall comply with the minimum properties of a carport or garage slab as specified in the Commerce City Residential Code.
- **I certify that I will UPLOAD ALONG WITH THIS LETTER photos of the reinforcing steel, photos of the pour that include the address and the driveway, the depth of the pour and date of the pour.**
- I certify that I witnessed the pouring of the driveway to verify the above is true.
