

Wall-Mounted and Freestanding Sign Certification Form

Certification by city-licensed contractor for the installation of wall-mounted or freestanding signs under 6 feet can be accepted in lieu of a building plan review for qualifying work; reviews by other city agencies may be required. Submit a completed copy of this form with the permit application and plans.

Sign Information

Address: _____

Description: _____

Sign Type: Wall Mounted/
 Projecting Freestanding (less than 6 feet in height)

Owner Information

Name: _____

Address: _____

City: _____ State: _____ ZIP Code: _____

Certification

I hereby certify that:

- My Commerce City contractor's license is current and in good standing.
- The design and construction complies with the current Commerce City Building Code and adopted Design Criteria.
- Freestanding signs will be installed to a minimum footing depth of 3 feet below adjoining finished grade.
- The height of the freestanding sign will be less than 6 feet measured from adjoining grade to top of sign. This measurement includes posts or other similar supporting members for the sign.
- All materials, including fasteners for wall-mounted signs, are approved for their intended use.
- Wall-mounted signs will be fastened and secured to structural components and not to masonry or stone veneers, EIFS or similar exterior non-structural finishes.

I acknowledge that acceptance of the certification shall not be construed as approval of any code deficiencies or defects subsequently identified.
